IDEAS

To work together

- ACEN members can encourage their Province and dioceses to share their environmental programmes using the Alliance's mapping tool (see handout).
- We can work together to influence Durban conference – November 2011.
- We can work together in an advocacy strategy to include CLIMATE CHANGE in the agenda of the G20 (20 biggest economies) meeting in Mexico in 2012.
- We can draw on your expertise (reports – conclusions) for the formulation of the consultation papers .
